

THE STATE OF UTAH

OFFICE OF STATE ENGINEER

T. H. HUMPHERYS

STATE ENGINEER

SALT LAKE CITY

May 23rd 1936

Memorandum for Office Study only, by R. Jerman

REL: BURNT FORK DISTRIBUTION.

9: 30 - Mr. McGinnis, Burnt Fork, Wyoming, called stating that they were in trouble again on Burnt Fork, the upper diversions had their canal filled and the small amount diverted below was being taken by Mr. Jensen who was cutting ditches again.

Mr. Jerman advised that this office would not do a thing until all expenses were taken care of for last year, but in the meantime some reliable information should be gathered in order that Mr. Jensen might be brought into court.
